Here lies a great here who shirked bloody strife;
He passed in a bottle some year; of his life;
But ere he was bottled, much plander he gained,
Which, in spite of remonstrance, he always rotained;

That no Butler e'er took such good care of the plate;
And when vessels of silver were missing, "Alack,"
Sighed the owners, "they're hidden in Benjamin's sack." ON PARSON BROWNLOW. "COSTAR'S" ON PARSON BROWNERS.

My Dear Sin: I have great pleasure in asking youto convey to Messrs. Chickering the expression of my highest approval of their instrument. It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the fluest Grand Pianofortes that has ever come under my observation; and the Messrs. Chickering may well be proud of having turned out from their magnifactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any other in the far-famed valley of Sarstogs. Its virtues are such as have secured it the high encomiums of all who have used it; possessing, as it does, in an eminent degree, esthertic, diuretic, alterative and tonic qualities.

From SAMUEL HENEY DIORSON, M. D., Professor Practice of Physic, Jefferson Medical College, Philadelphia, formerly of Charleston, S. C.:

PRILADELPHIA, ROVEMBER IB, 1866.

I have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Sarsto. Accustomed during the grest portion of my invalid fife to use the different waters of the several fountains which boll up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am estimated that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. A FEW WORDS OF COMMON

How few there are who are not subject to some affection of the lungs or respiratory organs, who, by neglecting premonitory symptoms, aggravate the complaint, until disease strikes its shafts, causing inexpressible torture of the patient, and anxiety and distress to friends. "Only, a cold!" "A slight sore throat!" is the heedless remark of many when so affected. Yes; "Only a cold," was the thoughtless expression of thousands whom Death has marked for his prey.

Forewarned—Forearmed! should be the motto forever in the minds of all subject to Coughs, Colds, Catarrh, or Influenza. Words of advice should be heeded by all subjecting from Asthma, Bronchitis, Consumption. Relief is within their reach; and, if neglected, fatal consequences ensue—a life of misery—a daily, hourly struggle for existence. A contest in which there can be but one victor—Death!

Dest it not sppal the strongest mind, to think of the result caused by neglect? Then why delay? What excuse can be offered, when timely warning is sounded in your ears? When the danger is pointed out, why not avoid it? Mareners's Pectonal Balm has been used with success in nearly a million of cases, and is endorsed by the Medical Faculty as the most prompt and efficacious remedy that scientific research has discovered, to relieve and cure all cases of Colars, Colds, Influenza, and Consumption, if the case is not beyond all hope. Even when the sufferer is 11 the last stages, he will find relief by using this preparation. One footile will convince the most incredulous, that the marits of this preparation are by no means exaggerated; if het, fall far short of the culogies bestowed upon it by thousands who have been cured by its timely use. A guarantee accompanies each bottle and dealers are instructed in every instance.
